MAINTENANCE TICKET SYSTEM

AOP Properties has enlisted, Maintenance Care, a maintenance ticket system which will be used to submit maintenance requests. House Directors are able to handle small issues in the facility but must always submit a work ticket. House Directors were informed of their new responsibilities during House Director and Corporation Relations Adviser training. If your chapter does not have a House Director but has a facility, the Corporation Relations Adviser and Property Manager will have access to this ticket system. The site is now live and there will be ongoing training from the Director and/or Assistant Director of Property Management.

The new ticket system allows AOP's professional staff the ability to monitor and review all expenses and issues that arise within the facility. Below is an image of what the online ticket system looks like:

MAINTENANCE REQUEST

Issue  [Please Select One]

Chapter  [Please Select One]

Where is issue located? 

Details of Issue

Your Name 

Phone# 

Your Email Address 

File Upload

The system allows the individual to provide plenty of detail, including photos, and any necessary documents. It retains a record of all submitted items, which allows us to build a detailed history of the facility.
